Soundtrack: > VR Commander - The Mission > VR Commander - Hail to the Emperor > VR Commander - Firing Experience > VR Commander - Chain Reaction > VR Commander - Red Alert > VR Commander - To The Limit > VR Commander - Concussion > VR Commander - The Quake Video: > VR Commander - Operating the Aircraft > VR Commander - The Firing Experience > VR Commander - Hail to the Emperor > VR Commander - > VR Commander - Breakthrough > VR Commander - Mission Accomplished > VR Commander - Return to Flight

DESCRIPTION: (Applicant's Abstract) Recent studies have shown that angiotensin-converting enzyme (ACE) inhibitors reduce insulin resistance in

---

the brain and protect from experimental seizure activity. These data suggest that ACE inhibitors may protect against epileptogenesis. The overall objective of this proposal is to determine if the ACE inhibitors captopril and perindopril protect against a model of epilepsy in the rat. Seizures will be induced by the local injection of a neurotoxin, kainic acid, into the caudate nucleus. The KA-treated animals will be treated with perindopril

### **What's New In?**

VR Commander is the perfect voice command and control program for everything from games to CAD, Visio, Notepad, Windows Explorer, Windows Registry and much more. Our powerful voice command and control interface is ideal for applications that require an alternative to a traditional input method.
